Material Safety Data Sheet
Technical Bulletin 201

Item

FG-2701
FG-2703

Package Size

2 pounds/jar
25 pounds/pail

Mi-Glow® Underwater 1 is red particles pre-mixed with a powdered Wetting Agent for use in underwater inspection. The particles are used with visible light, UV-A light and blue light. The particles are large for better enhancement of large weld discontinuities. Designed to be used for a variety of underwater inspections, including offshore structural welds, pipeline inspection and ship husbandry.
