

# **SAFETY DATA SHEET**

### 1. Identification

| Product identifier              | MI-GLOW <sup>®</sup> 783  |                |  |
|---------------------------------|---|----------------|--|
| Other means of identification   | Not available.  | Not available. |  |
| Recommended use                 | Non-destructiv  | ve testing.    |  |
| Recommended restrictions        | None known.   | None known.    |  |
| Manufacturer / Importer / Suppl | Supplier / Distributor information                                  |                |  |
| Company name                    | Circle Systems, Inc.  |                |  |
| Address                         | 1210 Osborne road   |                |  |
|                                 | Saint Marys, GA 31558   |                |  |
| Telephone                       | 912-729-2735  |                |  |
| E-mail                          | customerservice@circlesafe.com                                      |                |  |
| Emergency phone number          | Chem-Tel 800-255-3924 (US & Canada); 1-813-248-0585 (International) |                |  |

| 2. Hazard(s) identificatio            | 'n   |  |  |
|---------------------------------------|--|--|--|
| Physical hazards                      | Not classified.  |  |  |
| Health hazards                        | Serious eye damage/eye irritation.<br>Acute toxicity - oral.<br>Skin irritation.   | Category 2A<br>Category 4<br>Category 2  |  |
| OSHA defined hazards                  | Not classified.  |  |  |
| Label elements                        |  |  |  |
| Signal word                           | Warning  |  |  |
| Hazard statement                      | Causes serious eye irritation. Harmful if swallowed. Causes skin irritation.   |  |  |
| Precautionary statement<br>Prevention | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.   |  |  |
| Response                              | If exposed or concerned: Get medical advice/attention. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. If on skin: wash with plenty of water. Take off contaminated clothing and wash before reuse. |  |  |
| Storage                               | Store locked up.   |  |  |
| Disposal                              | Dispose of contents/container in accordation   | Dispose of contents/container in accordance with local/regional/national/international |  |
| Hazard(s) not otherwise               | regulations.   |  |  |
| classified (HNOC)                     | Not classified.  |  |  |

## 3. Composition/information on ingredients

| Mixtures<br>Chemical name                           | CAS number | %    |  |
|---|------------|------|--|
| Isopropylamine alkyl (C9-17-Br)<br>benzenesulfonate | 68649-00-3 | <10  |  |
| Benzenesulfonic acid, C10-16-alkyl                  | 68584-24-7 | <10  |  |
| derivs, compds, with isopropylamine                 |            |      |  |
| Benzene, (tetrapropenyl) derivs.                    | 68512-02-7 | <1   |  |
| Triethanolamine                                     | 102-71-6   | <35  |  |
| Diethanolamine                                      | 111-42-2   | <0.1 |  |
| Iron Oxide  | 1317-61-9  | <5   |  |

MI-GLOW<sup>®</sup> 783

| 4. First-aid measures   |  |
|---|--|
| Inhalation  | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.  |
| Skin contact  | Wash off with soap and water. Get medical attention if irritation develops and persists.   |
| Eye contact   | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, it present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.  |
| Ingestion   | Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical attention if symptoms occur.  |
| Most important<br>symptoms/effects, acute and<br>delayed                  | Irritation of eyes and mucous membranes.   |
| Indication of immediate medical attention and special treatment needed    | Provide general supportive measures and treat symptomatically. Symptoms may be delayed.  |
| General information   | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If exposed or concerned: Get medical advice/attention.  |
| 5. Fire-fighting measures   |  |
| Suitable extinguishing media  | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).  |
| Unsuitable extinguishing media  | Do not use water jet as an extinguisher, as this will spread the fire.   |
| Specific hazards arising from the chemical                                | None known.  |
| Special protective equipment and precautions for firefighters             | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.  |
| Fire-fighting<br>equipment/instructions                                   | In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you contai |
| 6. Accidental release mea   | sures  |
| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Wear appropriate protective equipment and clothing durin clean-up. Do not touch or walk through spilled material. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained.  |
| Methods and materials for<br>containment and cleaning up                  | Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following produ recovery, flush area with water.  |
|   | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.   |
|   | Never return spills in original containers for re-use. For waste disposal, see section 13 of the SDS.  |
| Environmental precautions   | Avoid discharge into drains, water courses or onto the ground.   |
| 7. Handling and storage   |  |
| Precautions for safe handling   | Avoid exposure - obtain special instructions before use. Do not handle until all safety precaution have been read and understood. Wear appropriate personal protective equipment. Avoid contains with eyes, skin, and clothing. Avoid breathing mist/vapors/spray. Use with adequate ventilation Observe good industrial hygiene practices.  |
| Conditions for safe storage, including any incompatibilities              | Keep container tightly closed. Store in a cool and well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).  |
| 8. Exposure controls/pers   | sonal protection   |
| Occupational exposure limits  |  |

| US ACGIH Threshold Limit Values |      |         |                     |
|---------------------------------|------|---------|---------------------|
| Components                      | Туре | Value   | Form                |
| Triethanolamine (CAS 102-71-6)  | TWA  | 5 mg/m3 | Inhalable fraction. |
| Diethanolamine (CAS 111-42-2)   | TWA  | 5 mg/m3 | Inhalable fraction. |

| Biological limit values             | No biological exposure limits noted for the ingredient(s).   |  |
|-------------------------------------|--|--|
| Appropriate engineering controls    | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station. |  |
| Individual protection measures      | s, such as personal protective equipment   |  |
| Eye/face protection                 | Wear safety glasses with side shields (or goggles).  |  |
| Skin protection                     |  |  |
| Hand protection                     | Wear protective gloves.  |  |
| Other                               | Wear suitable protective clothing.   |  |
| <b>Respiratory protection</b>       | In case of insufficient ventilation, wear suitable respiratory equipment.  |  |
| Thermal hazards                     | Wear appropriate thermal protective clothing, when necessary.  |  |
| General hygiene<br>considerations   | When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  |  |
| 9. Physical and chemical properties |  |  |

# 9. Physical and chemical properties

| Appearance   |   |
|--|---|
| Physical state   | Liquid.   |
| Form   | Liquid.   |
| Color  | Dark green  |
| Odor   | Detergent like.   |
| Odor threshold   | Not available.  |
| рН   | 7 - 8   |
| Melting point/freezing point                                     | Not available.  |
| Initial boiling point and boiling range                          | Not available.  |
| Flash point  | Not available.  |
| Evaporation rate   | Not available.  |
| Flammability (solid, gas)  | Not available.  |
| Upper/lower flammability or exp                                  | plosive limits  |
| Flammability limit – lower<br>(%)                                | Not available.  |
| Flammability limit – upper<br>(%)<br>Explosive limit – lower (%) | Not available.<br>Not available.  |
| Explosive limit – upper (%)                                      | Not available.  |
| Vapor pressure   | Not available.  |
| Vapor density  | Not available.  |
| Specific gravity   | 1.1 at 68 °F (20 °C)  |
| Solubility(ies)  | Soluble in water.   |
| Partition coefficient<br>(n-octanol/water)                       | Not available.  |
| Auto-ignition temperature  | Not available.  |
| Decomposition temperature  | Not available.  |
| Viscosity  | Not available.  |
| Other information  |   |
| VOC (Weight %)   | Not available.  |
| 10. Stability and reactivity                                     |   |
| Reactivity   | The product is stable and non-reactive under normal conditions of use, storage and transport. |
| Chamical stability   | Material is stable under normal conditions  |

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport. |
|---------------------------------------|---|
| Chemical stability                    | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions | No dangerous reaction known under conditions of normal use.                                   |

| Conditions to avoid                 | Contact with incompatible materials.           |
|-------------------------------------|--|
| Incompatible materials              | Strong oxidizing agents.                       |
| Hazardous decomposition<br>products | No hazardous decomposition products are known. |

# 11. Toxicological information

| Information on likely routes of  | exposure  |
|--|---|
| Ingestion  | Harmful if swallowed.   |
| Inhalation   | No adverse effects due to inhalation are expected.  |
| Skin contact   | May cause skin irritation.  |
| Eye contact  | Causes eye irritation.  |
| Symptoms related to the<br>physical, chemical and<br>toxicological characteristics<br>Information on toxicological eff | Irritation of eyes and mucous membranes. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. |

| Acute toxicity                                     |   |              |
|--|---|--------------|
| Components   | Species   | Test Results |
| Triethanolamine (CAS 102-71-6)                     |   |              |
| Acute  |   |              |
| Dermal   |   |              |
| LD50   | Rabbit  | > 2000 mg/kg |
| Oral<br>LD50<br>Diethanolamine (CAS 111-42-2)      | Rat   | 7200 mg/kg   |
| <b>Acute</b><br>Dermal<br>LD50<br>Oral             | Rabbit  | > 2000 mg/kg |
| LD50   | Rat   | 1600 mg/kg   |
| Skin corrosion/irritation                          | Prolonged skin contact may cause temporary irritation.                          |              |
| Serious eye damage/eye<br>irritation               | Causes serious eye irritation.  |              |
| Respiratory sensitization                          | No data available.  |              |
| Skin sensitization                                 | No data available.  |              |
| Germ cell mutagenicity                             | No data available.  |              |
| Carcinogenicity                                    | This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. |              |
| Reproductive toxicity                              | This product is not expected to cause reproductive or developmental effects.    |              |
| Specific target organ toxicity – single exposure   | No data available.  |              |
| Specific target organ toxicity – repeated exposure | No data available.  |              |
| Aspiration hazard                                  | No data available.  |              |

| 12. Ecological information               |  |  |
|--|--|--|
| Ecotoxicity                              | Toxic to aquatic life.   |  |
| Persistence and degradability            | No data is available on the degradability of this product.   |  |
| Bioaccumulative potential                | No data available for this product.  |  |
| Mobility in soil                         | Not available.   |  |
| Other adverse effects                    | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.                          |  |
| 13. Disposal considerations              | 8  |  |
| Disposal instructions                    | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.                         |  |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). |  |

### 14. Transport information

#### DOT

Not regulated as a hazardous material by DOT.

#### ΙΑΤΑ

Not regulated as a dangerous good.

#### IMDG

Not regulated as a dangerous good.

Transport in bulk according to This substance/mixture is not intended to be transported in bulk.

## Annex II of MARPOL 73/78 and

the IBC Code

#### 15. Regulatory information

**US** federal regulations

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

All components are on the U.S. EPA TSCA Inventory List.

#### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt D)

Not regulated.

US OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

**Hazard Categories** 

Immediate Hazard - Yes Delayed Hazard - Yes Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No
