

# SAFETY DATA SHEET

### 1. Identification

Product identifier	MI-GLOW <sup>®</sup> WETTING AGENT 771		
Other means of identification	Not available.		
Recommended use	Non-destructive testing.		
Recommended restrictions	None known.		
Manufacturer / Importer / Supplier / Distributor information			
Company name	Circle Systems, Inc.		
Address	1210 Osborne Road St. Marys, GA 31558		
Telephone	912-729-2735		
E-mail	customerservice@circlesafe.com		
Emergency phone number	Chem-Tel 800-255-3924 (US & Canada); 1-813-248-0585 (International)		

## 2. Hazard(s) identification

( )			
Physical hazards	Not classified.		
Health hazards	Serious eye damage/eye irritation	Category 2A	
	Reproductive toxicity (fertility, the unborn child)	Category 1B	
OSHA defined hazards	Not classified.		
Label elements			
Signal word	Danger		
Hazard statement	Causes serious eye irritation. May damage fertility or the unborn child.		
Precautionary statement			
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.		
Response	If exposed or concerned: Get medical advice/attention. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.		
Storage	Store locked up.		
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.		
Hazard(s) not otherwise classified (HNOC)	Not classified.		

### 3. Composition/information on ingredients

tures		
Chemical name	CAS number	%
Boric acid	10043-35-3	< 40
Butendioic acid, sulfo-1,4-bis(2-ethylhexyl) ester sodium salt	577-11-7	< 3

### 4. First-aid measures

Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist.

Skin contact Eye contact	Wash off with soap and water. Get medical attention if irritation develops and persists. Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Irritation of eyes and mucous membranes.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to

protect themselves. If exposed or concerned: Get medical advice/attention.

5. Fire-fighting measures	6	
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	
Specific hazards arising from the chemical	None known.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.	
Fire-fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.	
6. Accidental release measures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during clean-up. Do not touch or walk through spilled material. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained.	
Methods and materials for containment and cleaning up Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, when possible. Absorb in vermiculite, dry sand or earth and place into containers. Following proceeding the spilled material, when recovery, flush area with water.		
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.	
	Never return spills in original containers for re-use. For waste disposal, see section 13 of the SDS	
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.	
7. Handling and storage		
Precautions for safe handling	Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear appropriate personal protective equipment. Avoid contact with eyes, skin, and clothing. Avoid breathing mist/vapors/spray. Use with adequate ventilation. Observe good industrial hygiene practices.	
Conditions for safe storage, including any incompatibilities	Keep container tightly closed. Store in a cool and well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).	

## 8. Exposure controls/personal protection

#### **Occupational exposure limits**

#### **US ACGIH Threshold Limit Values**

Components	Туре	Value	Form
Boric acid (CAS 10043-35-3)	STEL	6 mg/m3	Inhalable fraction.
	TWA	2 mg/m3	Inhalable fraction.
Biological limit values	No biological exposure limits noted	or the ingredient(s).	

Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.		
Individual protection measures, such as personal protective equipment Eye/face protection Wear safety glasses with side shields (or goggles).			
Skin protection			
Hand protection	Wear protective gloves.		
Other	Wear suitable protective clothing.		
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.		
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.		
General hygiene considerations	When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.		

# 9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Liquid.
Color	Opaque yellow to clear.
Odor	Detergent like.
Odor threshold	Not available.
рН	8 – 9.5
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Approximately 100°C
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or expl	osive limits
Flammability limit – lower (%)	Not available.
Flammability limit – upper (%)	Not available.
Explosive limit – lower (%)	Not available.
Explosive limit – upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Specific gravity	1.3 (at 8 °F (20 °C)
Solubility(ies)	Soluble in water.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
VOC (Weight %)	Not available.
10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.

Conditions to avoid	Contact with incompatible materials.	
Incompatible materials	Strong oxidizing agents.	
Hazardous decomposition products	No hazardous decomposition products are known.	

## 11. Toxicological information

TT. TOXICOlOgical Informati		
Information on likely routes of e	xposure	
Ingestion	Expected to be a low ingestion hazard.	
Inhalation	May cause irritation to the respiratory system.	
Skin contact	May cause skin irritation.	
Eye contact	Causes eye irritation.	
Symptoms related to the physical, chemical and toxicological characteristics Information on toxicological effe	Irritation of eyes and mucous membranes.	
Acute toxicity		
Components	Species	Test Results
Boric acid (CAS 10043-35-3)		
Acute		
Dermal		
LD50	Rabbit	> 2000 mg/kg
Oral		
LD50	Rat	2660 mg/kg
3utendioic acid, sulfo-1,4-bis(2-eth	ylhexyl) ester sodium salt (CAS 577-11-7)	
Acute		
Oral		
LD50	Mouse	2.64 g/kg
kin corrosion/irritation	Prolonged skin contact may cause temporary	
Serious eye damage/eye rritation	irritation. Causes serious eye irritation.	
Respiratory sensitization	No data available.	
Skin sensitization	No data available.	
Germ cell mutagenicity	No data available.	
Carcinogenicity	This product is not considered to be a carcinogen	by IARC, ACGIH, NTP, or OSHA.
Reproductive toxicity	May damage fertility or the unborn child.	
Specific target organ toxicity – single exposure	No data available.	
Specific target organ toxicity – epeated exposure	No data available.	
Aspiration hazard	No data available.	
Chronic effects	Prolonged inhalation may be harmful.	
2. Ecological information		
Ecotoxicity	The product is not classified as environmentally ha possibility that large or frequent spills can have a h	
Persistence and degradability	No data is available on the degradability of this pro-	
Bioaccumulative potential	No data available for this product.	
Nobility in soil	Not available.	
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.	
13. Disposal consideration		
Disposal instructions	Collect and reclaim or dispose in sealed containers	s at licensed waste disposal site. Dispose of
oisposai instructions	contents/container in accordance with local/region	

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

#### 14. Transport information DOT Not regulated as a hazardous material by DOT. IATA Not regulated as a dangerous good. IMDG Not regulated as a dangerous good. Transport in bulk according to This substance/mixture is not intended to be transported in bulk. Annex II of MARPOL 73/78 and the IBC Code 15. Regulatory information **US** federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory List. TSCA Section 12(b) Export Notification (40 CFR 707, Subpt D) Not regulated. US OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050) Not listed. CERCLA Hazardous Substance List (40 CFR 302.4) Not listed Superfund Amendments and Reauthorization Act of 1986 (SARA) **Hazard Categories** Immediate Hazard - Yes Delayed Hazard - Yes Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No SARA 302 Extremely Not listed. hazardous substance SARA 311/312 Hazardous Yes chemical SARA 313 (TRI reporting) Not regulated. Other federal regulations Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List Not regulated. Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) Not regulated. Safe Drinking Water Act Not regulated. (SDWA) US state regulations **US Massachusetts RTK - Substance List** Not regulated. US New Jersey Worker and Community Right-to-Know Act Boric acid (CAS 10043-35-3) US Pennsylvania RTK - Hazardous Substances Not listed. **US Rhode Island RTK** Not regulated. **US California Proposition 65** This product does not contain a chemical known to the State of California to cause cancer, birth defects or other reproductive

harm.

#### US - California Proposition 65 - Carcinogens & Reproductive Toxicity (CRT): Listed substance
